# Some useful advices

We Save the environment if...

**We recycle  
more times, up  
to failure,  
plastic bags  
from shops:**

...so we will not  
waste plastic every  
time we go to the  
grocery store.

We eliminate waste in a rational and differentiated way: let's get information at our town or our company's services on how to do.

We visit the ECOLOGICAL STATION OF OUR CITY

It is an opportunity to free our cellars and attics and to realize how many of the items that we no longer needed can be reused.

We collect and bend PET plastic bottles and PE to deposit them in the appropriate bins.

# NEVER WASTE GLASS

Reuse as long as we can and then let's put it in the collection bells.

Aluminum is a precious metal that can be recycled:  
DO NOT throw the empty cans in the street but let's collect them  
in the special bells.

# HARMFUL AND TOXIC WASTE

**LET'S** LEARN TO ELIMINATE THEM PROPERLY

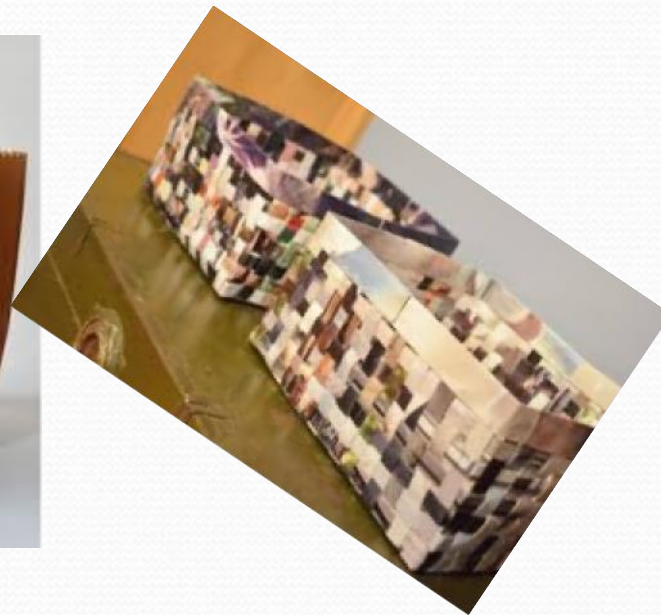

# ORGANIC WASTE

if you have a garden, let us turn to our services company to inform on **COMPOSTING** organic waste

...To plastic bags prefer cloth bags,  
paper bags, baskets, crates, carts and  
boxes .....

We learn to reuse paper bags for other expenses,  
as long as you can.

RECYCLED PAPER choose for school, work and Leisure

We limit the use  
of: plastic and  
paper  
disposable,  
paper towels,  
paper towels,  
bags for  
freezer and films.

We reduce the use of detergents preferring green products and biodegradable

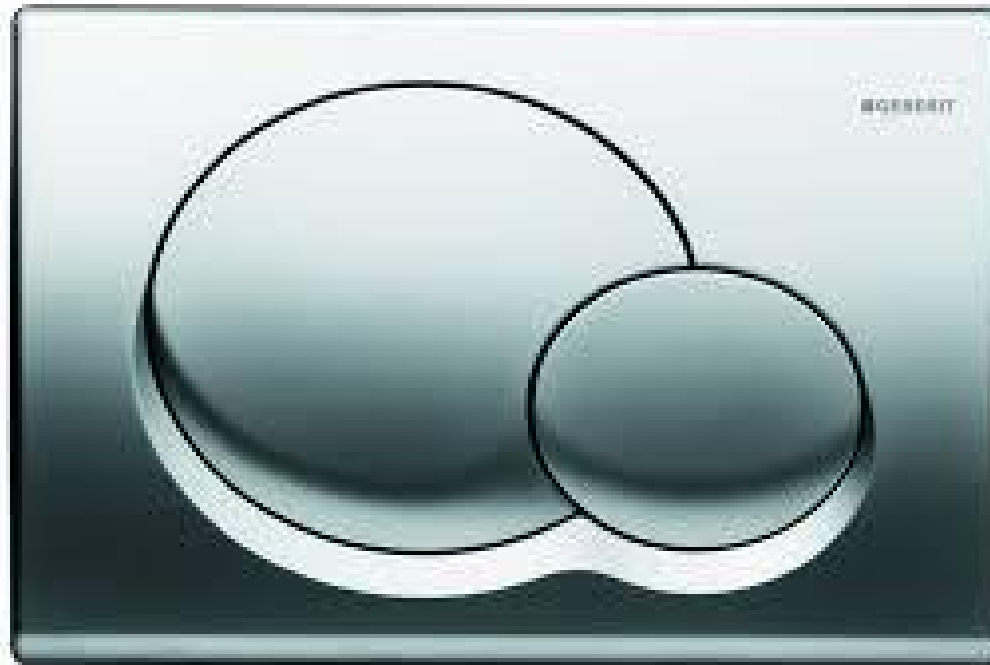

## REDUCE CONSUMPTION OF WATER

We do not waste water, for small daily gestures as wash your hands, brush your teeth, close the tap when soaping. We do the same for the shower.

Economize water W.C. if we have the special  
SAVER button

For washing laundry and dishes in washing machines select the energy saving program by limiting the consumption of water and electricity.

We reuse the water of cooking of pasta and / or vegetable for watering the plants

We teach children to use toys and, with various items to create new ones using the imagination.

Then.....

.....turn off the lights  
When we finish working!

**Thanks for  
watching.**
